

3/30/2018

Mark,

I really enjoyed working with you again this year in the planning of your trip to Nashville. Throughout the trip we received numerous compliments regarding your students and I wanted to share with you some of the comments.

The staff at the Holiday Inn all had wonderful things to say about your group throughout their stay. Individual guests staying at the hotel who interacted with your students had said that they were an extremely courteous and polite group of young men and women. And that they didn't even know that there was a large student group on the property.

Everyone from the Tour Director, to the Dance Instructor and Restaurant Staff all said that your students were an absolute pleasure to work with and one of the best-behaved groups that they have encountered.

This group of students certainly represented University High School in a very positive manner. The students, parents and staff at the school should be very proud of these wonderful young adults.

Sincerely,

Rita Slane
